The region's largest trade fair in the Rheingoldhalle in Mainz provides a very good overview of the wide range of **apprenticeships and degree programmes**. With over 140 exhibitors, BIM Rheinhausen offers a large market of opportunities for your child's future. Nine areas additionally present interesting **hands-on activities and professions** to try out and thus are an exciting experience for young people and parents.

More than **35 free webinars** provide information on occupational fields, degree programmes and comprehensive topics such as career guidance. Additional webinars for parents are also offered.
